Versatile Full-Stack Developer specializing in TypeScript/JavaScript, React.js, and Node.js. I build adaptable web solutions tailored to business needs ranging from high-conversion landing pages to scalable e-commerce platforms and expert systems. Passionate about clean code, problem-solving, and delivering modern UI/UX experiences.

PROFESSIONAL EXPERIENCE

Inproandes **Valera, Venezuela**
Software Developer (Internship) *September 2024 – January 2025*

- Spearheaded the development of a custom e-commerce platform designed to streamline the company's product sales and improve operational efficiency.
- Built a responsive, mobile-first frontend architecture using React, TypeScript, and Tailwind CSS, ensuring strict type safety, fast load times, and a modern user experience.
- Designed and integrated a relational database using MySQL for robust product and inventory management, maintaining clean code and version control via Git.

Universidad Valle del Momboy **Carvajal, Venezuela**

IT Department Scholar *2021 – 2024*

- Provided technical support and managed computing resources and database for the university's Department of Computing for 3 consecutive years.
- Assisted in the maintenance of internal systems and supported students and faculty with technical requirements.

EDUCATION

UNIVERSIDAD VALLE DEL MOMBOY **Carvajal, Venezuela**
Computer Engineer *Abril 2026*
Informatics Technician, High School Diploma in Computing.

SKILLS ADICIONALES

- Responsive Design (Mobile First), UI/UX Optimization, AI-Driven Development.
- Spanish Native. English Intermediate (Technical & Professional).
